

Delivering a World of Solutions in Fire Protection

NOTIFIER is an established industry leader in the field of integrated networking. Integrated networking means that operators have a comprehensive interface for the diverse systems required in today's market.

For over 50 years, NOTIFIER has been in a leadership position in the fire alarm industry. Today NOTIFIER is the largest manufacturer of engineered fire alarm systems, with over 400 distributors worldwide, and regional support operations on every continent helping to ensure SIGCOM provides the flexibility and options your business needs.

Each quality NOTIFIER fire alarm system is manufactured in a state-of-the-art facility in the United States, Australia, Canada, Italy or the United Kingdom. Each facility is ISO-9001 certified - the highest recognition in engineering and manufacturing. NOTIFIER manufactures products to meet virtually every international approval, including UL, FM, EN54, LPC and Lloyd's where applicable.

From 2-loop conventional fire alarm panels to 10-loop, intelligent fire alarm panels, NOTIFIER offers products and systems that meet all your requirements - every time.
