

SIGCOM Establishes State & Local Division

Greensboro, NC- July 28, 2006 – SIGCOM INC, a leading systems integrator providing Integrated Physical and Electronic Security Solutions to United States Government clients worldwide, announces today that a State & Local Government division has been established as part of its growth strategy of extending its reach into this important market. Mr. Robert Betty, who recently joined SIGCOM, will head up the new division as Director for New Business Development based in the Philadelphia area.

Mr. Betty, who started and operated Pinnacle Electronic Systems for 13 years sold his company to a Fortune 500 company just prior to joining SIGCOM, stated that *“This is a great opportunity for me to exploit my 32 years of state & local security experience by establishing and growing a brand new market sector for SIGCOM. When I met with SIGCOM executives to discuss expansion strategies, I saw something special in SIGCOM’s approach to the market and in their great reputation in the Federal space. I am excited about establishing sales offices throughout the country and have already stood up the San Antonio office to address the rapidly growing security market in the southwest and Cleveland comes on line soon.”*

Betty and his team will sell security solutions to all aspects of the new sector to include Correctional facilities and Homeland Security applications for State & Local Homeland Security applications.

About SIGCOM INC

SIGCOM is a leading systems integrator that focuses on the design and integration of visual communications and physical/electronic security solutions for Federal Government clients. In an environment in which information technology and physical security transport are converging, SIGCOM’s particular strength is the ability to develop multi-discipline turnkey network infrastructure solutions that exploit commercial off the shelf products. Their world class service and technical support team have designed and implemented a full range of security systems and force protection solutions for the US Prisons market, the Department of Defense, Smithsonian, Department of Homeland Security, Treasury, Special Operations groups, and the Intel community worldwide. SIGCOM leveraged its experience and success in the U.S. Government market to establish a Perimeter Fence Solutions” Division and more recently, the State and Local Government Division.
