

Ultra Compact DVR System - black box recorder unit

P/N SIGC-TPR-5

Ultra Compact DVR System - black box recorder unit

The ultra compact digital video recorder system provides broadcast quality video and audio recording and playback. This unit provides the recording capability of the system. The single circuit board design video recorder/player is designed for standalone and portable operation. It is capable of recording up to 50 hours of video data, and recording media can be either hard drive or Flash disk. Extremely small and lightweight, the recording unit lends itself to UAV and remote deployment applications.
