

## *Base PLC Assembly*

**P/N PLCBASESEC400.1 "Now available on our GSA Schedule"**

### **Base PLC Assembly**

This assembly will provide a base PLC setup of 16 inputs by 16 outputs. The base system includes the PLC Central Processing Unit (CPU) with 16 inputs and 16 outputs (accepts standard programming methods capable of network communications), 24-VDC power supply, mounting panel, hardware/terminal blocks/relays/fuses, PLC software loaded on a laptop Personal Computer and PLC CPU system. Design, engineering, fabrication, programming, installation, and testing of the assembly are also included.
