

Large Fire Alarm System

P/N FALGSEC900.1 "Now available on our GSA Schedule"

Large Fire Alarm System

The solution is designed around large applications of IDC and NAC Devices. The solution consists of a Dual Isolated Intelligent Addressable Fire Alarm Control Panel, listed for use with Style 4, 6 and 7 circuits. The panel has a capacity of 636 devices. On-board 80 Character Display with QWERTY Keyboard. Panel can poll all devices on a SLC within 2 seconds and activate up to 159 outputs in the same time frame. Remote Annunciator has similar display and keyboard functions as FACP. A separate battery cabinet includes two (2) each 12 Volt 55 AH batteries for the control panel. Also included are: 50 each Intelligent Addressable Smoke Detectors with Bases; 10 each Intelligent Addressable Heat Detectors with Bases; 12 each Intelligent Addressable Pull Stations; 5 each Intelligent Addressable Duct Detectors with Keyed Remote Test Stations and Sampling Tubes; five (5) each Intelligent Addressable Monitor Modules and 5 each Control Modules. The backup power supply includes a cabinet and two (2) each 12 Volt 25 AH Batteries. Software Programming License; 15,000 feet 16/2 FPL wire and 1,500 feet of ¾-inch EMT Conduit with Connectors, Couplings, Straps and Junction Boxes with Covers also included. System design, engineering, fabrication, installation, programming, test, checkout and system certification are included.
