

## *PLC Local Expansion Assembly*

**P/N PLCLEXPSEC400.1 "Now available on our GSA Schedule"**

### **PLC Local Expansion Assembly**

This assembly enhances and upgrades the Base PLC Assembly by adding 16 inputs and 16 outputs. The system configuration with the Base PLC Assembly will bring the total system I/O count to 32 inputs by 32 outputs. This assembly does not include the Base PLC Assembly but includes 16 inputs, 16 outputs, hardware and software interconnections to the Base PLC Assembly, terminal blocks/relays/fuses, PLC CPU. Programming, system design, engineering, fabrication, installation, and testing of the assembly are also included. This add-on assembly assumes no remote I/O capability.
